

INTELLIGENCE, OPERATIONALISED

Free AI Readiness Audit

A structured 20-minute assessment of where your business stands with AI today.

We identify your highest-value opportunities, flag what's blocking you, and hand you a clear prioritised roadmap — before a single line of code is written.

 "Your AI. Your data. Your rules."

ZERO DATA EGRESS · ON-PREM · GDPR-READY

WHAT WE ASSESS ACROSS 6 DIMENSIONS

01

Operations & Workflows

Where manual effort, human memory, and repetition are slowing your team down.

→ Which processes repeat daily or weekly?

→ Where do approvals and handoffs stall?

→ What does your team chase most often?

02

Data & Knowledge

How well your business captures, stores, and accesses the knowledge it already has.

→ Where does critical knowledge live today?

→ How long does it take staff to find answers?

→ What leaves with employees when they go?

03

Decision-Making

Whether your business has the data visibility to make fast, confident decisions.

→ What decisions are made on gut vs data?

→ How quickly can you see a KPI change?

→ Where do risks go unnoticed until too late?

04

Technical Readiness

Your current infrastructure, tools, and data quality — honest assessment of what's AI-ready.

→ What systems and tools are currently in use?

→ Is data structured, accessible, and clean?

→ What are the security and compliance requirements?

05

AI Opportunity Score

A ranked view of where AI will deliver the highest ROI in your specific business context.

→ Which use cases have the clearest ROI?

→ What can be live in weeks vs months?

→ Where is the lowest-risk starting point?

06

Risk & Constraints

What could block or slow AI adoption — data gaps, compliance, team capacity, or culture.

→ What are the regulatory requirements?

→ Where is team buy-in strongest or weakest?

→ What's the realistic budget and timeline?

WHAT YOU RECEIVE — WITHIN 48 HOURS

AI Opportunity Map

A visual map of your top 3–5 AI opportunities, ranked by ROI potential and implementation speed.

Prioritised Roadmap

A clear, one-page action plan — what to build first, what to defer, and why. No jargon.

ROI Estimate

An honest estimate of time and cost saved per use case — so you can make a business case internally.

HOW THE AUDIT WORKS

1

Book a Call

20 minutes via Calendly. No preparation needed.

Day 1

→

2

We Ask, You Share

We guide you through 6 structured areas — operations, data, decisions, tech, opportunity, risk.

Day 1

→

3

We Analyse

Our team maps your inputs against real AI deployment patterns and ROI benchmarks.

Day 1-2

→

4

You Receive

Your one-page AI Readiness Report delivered by email within 48 hours.

Day 2-3

Book your free 20-minute AI Readiness Audit

No commitment. No sales pitch. Just clarity on where AI fits in your business.
